

# NON-PUBLISHED LISTING SERVICE

## NON-PUBLISHED LISTING SERVICE SERVICE HELPS KEEP YOUR LISTING PRIVATE IN THREE WAYS:

- Your telephone number won't be provided to any directory publisher.
- Your telephone number is not included on lists that we may provide to other companies for marketing purposes.
- Directory Assistance won't give out your telephone number.

For your security, your number is always available to 911 and E911 Emergency Services. It's also available to local and long distance telephone companies for itemized billing and collections.

From time to time, we may contact you with special offers on other privacy-related products or to let you know about other services available from Qwest. To avoid these calls and remove your name from our calling lists, call us at 1 800-244-1111.

Even though you have a Non-Published Listing, your information may be still displayed if you call someone who has Caller ID. If you want to keep your number private, you can press **\*[6]7** (rotary **①①⑥⑦**) before you dial the number you want to call. If you want to block all your outgoing calls (except 911), call us about our Line Blocking Service.
